Why would people who were not completely healthy be rejected for the slave trade?	

## **Document 3:**

This diagram from 1788 depicts the storage capacities of the British slave ship Brookes. By packing in slaves much like sardines in a can, the ship owner was able to legally transport 454 individuals this way. By pushing captives up inside the legs of other slaves, captains could illegally increase their capacity to 600 or more. (source: http://www.pbs.org/wnet/historyofus/tools/browser5.html)

Why would captains risk breaking the law to pack 600 people into their ships?	

## **Document 4:**

Here is the slave deck of the *Wildfire*, brought into Key West on April 30, 1860. This drawing was made from a daguerreotype photograph.

What does this drawing illustrate about life for slaves during the Middle Passage?
What does this picture and the diagram in Document 3 illustrate about how Africans were viewed by Europeans?
