Excerpt from Share Our Wealth Speech in U.S. Senate, Senator Huey Long, February 5, 1934

“To share our wealth by providing for every deserving family to have one third of the average wealth would mean that, at the worst, such a family could have a fairly comfortable home, an automobile, and a radio, with other reasonable home conveniences, and a place to educate their children... There is nothing wrong with the United States. We have more food than we can eat. We have more clothes and things out of which to make clothes than we can wear. We have more houses and lands than the whole 120 million can use if they all had good homes. So what is the trouble? Nothing except that a handful of men have everything and the balance of the people have nothing if their debts were paid. There should be every man a king in this land flowing with milk and honey instead of lords of finance at the top and slaves and peasants at the bottom... Motto: "Every man a king" conveys the great plan of God and of the Declaration

of Independence, which said: "All men are created equal." It conveys that no one man is the lord of another, but that from the head to the foot of every man is carried his sovereignty."

The Spirit of '37, 1937 *Hint- this is a take on the Spirit of '76 (aka 1776) - [scroll down to see original painting](#)
