

Name _____

Period _____

Psychology Vocabulary

Chapter 1: Introduction

List #1

1. Psychiatry
2. Psychology
3. Physiological
4. Cognitive
5. Psychologist
6. Hypothesis
7. Scientific Method
8. Research psychology
9. Applied science
10. Introspection

List #2

1. Psychoanalysis
2. Engineering psychology
3. Forensic psychology
4. Industrial-organizational psychology
5. Sports psychology
6. Clinical psychology
7. Educational psychology
8. Developmental psychology
9. Jean Piaget
10. Sigmund Freud

Chapter 4: Body and Behavior

List #3

1. Autonomic Nervous System
2. Brain
3. Central Nervous System
4. Cerebellum
5. Endocrine System
6. Forebrain
7. Hindbrain
8. Hormones
9. Midbrain
10. Neurons

List #4

1. Neural Transmitter
2. Peripheral Nervous System
3. Phynneas Gage
4. Pituitary Gland
5. Sociobiology
6. Somatic Nervous System
7. Species-specific behaviors
8. Spinal cord
9. Thyroid gland
10. Twin Study

Chapter 13: Stress

List # 5

1. Anger
2. Anxiety
3. Biofeedback
4. Coping
5. Denial
6. Distress
7. Eustress
8. Fear
9. Frustration
10. Intellectualization

List #6

1. Learned helplessness
2. Meditation
3. Perceived control
4. Pressure
5. Progressive relaxation
6. Stress
7. Stressor
8. Stress reaction
9. Internal locus of control
10. External locus of control

Chapter 11: Personality

List #7

1. Behaviorism
2. Conscious
3. Defense mechanism
4. Denial
5. Displacement
6. Ego
7. Extravert
8. Humanistic psychology
9. Id
10. Inferiority complex

List #8

1. Introvert
2. Preconscious
3. Projection
4. Rationalization
5. Regression
6. Repression
7. Self-actualization
8. Superego
9. Trait
10. Unconscious

Chapter 7: Altered States of Consciousness

List 9

1. Consciousness
2. REM Sleep
3. Sleep Apnea
4. Narcolepsy
5. Sleep Terrors

6. Sleep Deprivation
7. Hypersomnia
8. Insomnia
9. Dream
10. Hypnosis

List #10

1. Posthypnotic Suggestion
2. Hallucination
3. Sensory Deprivation
4. Meditation
5. Hallucinogens
6. Lucid Dreams
7. Stimulants
8. Sedatives
9. Narcotics
10. Hallucinogens

Chapter 2: Conditioning

List #11

1. Classical Conditioning
2. Behavior Modification
3. Unconditioned Stimulus
4. Unconditioned Response
5. Neutral Stimulus
6. Conditioned Stimulus
7. Conditioned Response
8. Discrimination
9. Extinction
10. Learning

List #12

1. Operant Conditioning
2. Fixed-interval schedule
3. Fixed-ratio schedule
4. Variable-interval schedule
5. Variable-ratio schedule
6. Generalization
7. Negative Reinforcement
8. Positive Reinforcement
9. Positive Punishment
10. Negative Punishment

Chapter 3: Memory

List #13

1. Chunking
2. Concept
3. Directed Thinking
4. Feature extraction
5. Input
6. Insight
7. Long-term memory
8. Memory
9. Metacognition
10. Mnemonic Devices

List #14

1. Nondirected thinking
2. Output
3. Recall
4. Recognition

5. Rehearsal
6. Repression
7. Retrieval
8. Selective Attention
9. Sensory Storage
10. Short-term Memory

Chapter 15: Abnormal Behavior

List #15

1. Addiction
2. Antisocial personality
3. Anxiety Disorder
4. Bipolar disorder
5. Conversion disorder
6. Delusion
7. Depression
8. Dissociative identity disorder
9. Hypochondria
10. Manic

List #16

1. Obsessive-compulsive disorder
2. Panic disorder
3. Paranoid
4. Personality disorder
5. Phobia
6. Post-traumatic stress disorder
7. Psychological dependence
8. Schizophrenia
9. Somatoform disorder
10. Withdrawal

Chapter 18: Attitudes and Social Influence

List #17

1. Attitude
2. Body Language
3. Brainwashing
4. Cognitive dissonance
5. Compliance
6. Discrimination
7. Identification
8. Ideology
9. Internalization
10. Message

List #18

1. Nonverbal Communication
2. Norms
3. Obedience
4. Persuasion
5. Prejudice
6. Scapegoat
7. Self-fulfilling prophecy
8. Self-justification
9. Sleeper Effect
10. Stereotype
